

I was giving a workshop in Saint Petersburg, Russia in August of 2018.
These were the currency exchange rates at that time.

At a bank in Russia (<https://koyalut.com/rate/sankt-peterburg/>):

- Buying dollars: 63.5 (rubles per dollar)
- Selling dollars: 66.7 (rubles per dollar)

At Bank of America (in the USA)

(<https://www.bankofamerica.com/foreign-exchange/foreign-currency-exchange.go>):

- Buying rubles: 0.01465 (dollars per ruble)
- Selling rubles: 0.01685 (dollars per ruble)
